

PreWash B NTA-free

Precleaner & insect remover NTA-free

The highly concentrated, phosphate and NTA-free, highly alkaline pre-cleaner for car and truck pre-wash. The high proportion of complexing agents, surfactants and special additives spontaneously dissolves even the most stubborn adhesions such as insects, bird excrement, environmental and rim soiling and is therefore ideally suited in particular for car washes with short reaction times (e.g. express car washes) and for alkaline car wash cleaning. Also optimally suited for biological service water treatment plants. Quick release according to ÖNORM 5106. VDA-compliant class B: reaction time max. 1 min, max. application concentration 1:100

page 1 of 1

Areas of use

Cars, commercial vehicles, construction machinery, steel rims and alkali-resistant painted aluminum rims, wash hall floors/walls.

Recommendations for use

Depending on soiling: Pre-cleaning: 1:30 to 1:100. Rim cleaning: 1:4 to 1:20. Apply to the entire surface and rinse thoroughly after max. 1 min using a high-pressure cleaner. Wash bay cleaning: 1:2 to 1:15. VDA-compliant class B: exposure time max. 1 min, max. application concentration 1:100

Container
