

Teilerreiniger alkalisch

Parts cleaner A

Powerful, high-alkaline, foam-inhibited parts cleaner for quick and thorough cleaning of extremely dirty workpieces and units made of steel, aluminium, cast materials, etc., in immersion, spray and ultrasound baths. Oil, grease, oil carbon, soot, etc., are removed quickly and thoroughly. Quick-separating and with very good temporary corrosion protection. Rust grade in accordance with DIN 51360/2 0-1 at 3%. With Daimler approval.

page 1 of 1

Areas of use

Workpieces and units made of steel, aluminium, cast materials, etc., for use in workshops.

Recommendations for use

Use in a 3-5% concentration in immersion, spray and ultrasound baths. Depending on the dirt accumulation, use for one to a few minutes at 50 °C. The cleaned parts can be stored for some time without further protective measures and without acquiring rust bloom.
